

Remarks

The Examiner has objected to the drawings under 37 CFR 1.83(a). Specifically, the Examiner notes that the cover to close the opening in the cargo box of claim 11 was not shown in the figures. While the reference numeral 86 in Fig. 9 was referring to the cover, the drawing has now been amended to make this more clear. The Examiner has further noted that the draw bar of claim 15 did not have a reference numeral in the specification or drawings. Accordingly, paragraph [0016] of the specification has been amended, as was Fig. 5, so as to apply the reference numeral 33 to the draw bar. Because the draw bar was disclosed in the original drawings it is submitted that no new matter has been added.

The Examiner has rejected Claims 8-11 under 35 USC 102(b) as being anticipated by US Patent No. 5,016,898 to Works et al. The Examiner has also rejected Claim 14 under 35 USC 103(a) as being unpatentable over Works et al. in view of US Patent No. 5,975,216 to Gibbons. The Examiner has rejected Claim 15 under 35 USC 103(a) as being unpatentable over Works et al. in view of US Patent No. 5,709,274 to Herbold.

The Examiner has objected to Claims 12-13 as being dependent upon a rejected base claim, but has indicated that these two claims would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claim 8 has now been amended to include the subject matter of claims 9 and 12 and claims 9 and 12 have accordingly, been cancelled. Claim 13 has also been amended to make it depend from claim 8 since claim 12 was cancelled.

In conclusion, it is believed that this application is in condition for allowance, and such allowance is respectfully requested.

Should the Examiner believe that a telephonic conference would be useful in furthering the present application toward allowance, the undersigned attorney would
